ChemPatch™

PIPE REPAIR KIT

Quick-action repair for cracked or broken pipes

ChemPatch™ Pipe Repair Kit is a resin-coated fiberglass cloth and Butyl Tape, which is a blend of butyl rubber, that are combined to repair leaks in cracked or broken pipes. This system is designed to repair pipes that can be shut down prior to application. Normal setting times is 30 minutes, but it may vary depending on temperature. When properly applied, this system can withstand pressures up to 500 psi. This system will repair PVC, metal, rubber, fiberglass, plastic, etc., making it ideal for most maintenance applications.

ChemPatch Repair Kit is available in 2" x 5', 3" x 9', and 4" x 15' lengths.

PRODUCT SPECIFICATIONS

ADVANTAGES

No down time
 No mixing, no mess
 No tools or cleanup needed
 Time-saving installation
 Nontoxic
 Noncombustible

MECHANICAL PROPERTIES

Structure	Method	PSI
Flexural Str.	ASTM D 709-71	16,100
Tensile Str.	ASTM D 638	24,900
Compression Str.	ASTM D 695-77	26,600
Dielectric Str.	16060 Volts	
Heat Resistance	500°F (260°C)(Intermittent)	

PIPE DIAMETER

1/2" - 1"
 1 1/4" - 2"
 2 1/2" - 4"
